SUMMARY

UI/UX Designer with experience designing digital products, web experiences, and dashboards. Skilled in translating product requirements into intuitive user flows, wireframes, prototypes, and polished interfaces, with an interest in AI-assisted design and development workflows.

SKILLS

- **Design:** UI UX Design, Product Design, Wireframing, Information Architecture, Usability Testing, Visual Design, Design Systems
- **Tools:** Figma, Framer, Adobe Creative Suite, Claude, Cursor, Figma Make, v0, Lovable, Framer AI

PROFESSIONAL EXPERIENCE

PropVR, Bangalore, India
UI UX Designer | October 2025 – Present

- Worked on WebLite, Spatial Key, and client-facing dashboards, designing screens and user flows in Figma from initial wireframes to final UI.
- Reworked existing screens, improved interactions, and built reusable components. Used Claude and Cursor to explore ideas and bring designs into working prototypes.

PropVR, Bangalore, India
Tech, Product Support | October 2024 – OCtober 2025

- Managed WebLite experiences for clients including **DAMAC, Danube, and Emaar**, coordinating project set up, content management and delivery.
- Managed Creator Tool operations and internal inventory, mentored four Product Support associates, and supported delivery across multiple client accounts.

Apparao Galleries, Chennai, India
Graphic Designer | June 2023 – December 2023

- Designed exhibition collaterals, including posters, catalogues, brochures, banners, and signage, aligned with each exhibition's theme.
- Developed cohesive visual identities for exhibitions, translating curatorial concepts into engaging print and digital communication materials.

Sun TV Network, Chennai, India
Video editor Intern | January 2023 – March 2023

- Edited television content, promos, and studio shows using Premiere Pro and DaVinci Resolve, working within broadcast schedules.

PROJECTS

Craft | Website & Dashboard UX
Designed website and dashboard experiences for an AI-powered creative workflow product, using Figma, Claude, and Cursor.

Spacture AI | Website Redesign
Redesigned the website to improve engagement and clearly communicate product value, handling wireframes, content flow, and prototype.
